

Create space for what matters.

Delight clients and optimize your revenue.

CARET Legal

CARET Legal, previously known as Zola Suite, automates the most critical processes in your firm to help you manage all aspects of your practice. Our award-winning legal platform is designed to take you further. From client intake, to matter management, to back-office reporting, CARET Legal enables you to save time, increase team collaboration, scale your business, and collect revenue faster than ever before.

Why CARET Legal?

We sweat the small stuff so that you can concentrate on the bigger picture.

OPTIMIZATION

Drive revenue and expedite your billing cycle with CARET Legal's integrated accounting and billing features that help you accurately and quickly calculate client invoices. You can issue client invoices, in bulk, without the need to hire additional accounting staff or purchase costly software. Our integrated payment processing allows you to offer your clients convenient payment methods including ACH and credit cards to expedite your billing cycle.

AUTOMATION

Save your firm time and increase productivity by generating customized legal documents up to 90% faster than manual document creation. With CARET Legal document automation powered by HotDocs, you can mitigate errors and automate your document creation in one click.

ORGANIZATION

Organize and align your team and processes by utilizing CARET Legal's collaboration tools. These robust features offer full visibility into firm workflows. You can easily set reminders for team members and tie all records back to a specific matter for quick access to the most important details of each matter.

COMMUNICATION

Communicate with clients effortlessly within the CARET Legal platform through integrated client texting, email, and calendar integrations. Securely send sensitive documents through CARET Legal's client portal.

Securely Access Critical Data from Anywhere

CARET Legal is cloud-based, and the first SOC 2 compliant solution that enables you and your team the freedom to work from anywhere, including the CARET Legal mobile app, while keeping your client data secure. CARET Legal also integrates with your preferred Document Management Systems, including NetDocuments, so you can quickly access your critical documents from platforms you already know and trust.
